Passionate Frontend Developer with a keen eye for detail and a creative approach to solving complex problems. Expert in translating design concepts into responsive and user-friendly interfaces. Dedicated professional committed to staying abreast of emerging technologies and industry trends. Excited to contribute technical expertise and innovation to dynamic projects.

Education

Universidad Tecnológica Nacional - Tecnicatura Universitaria en Programación　　**March 2022 - December 2023**
- A career where I learned application development, problem-solving, and teamwork skills.

Rolling Code School - FullStack Developer　　**June 2023 - In progress**
- Course for web development with a strong emphasis on teamwork (SCRUM).

Skills

- **Frontend:** JavaScript, React.js, TailwindCSS, Bootstrap.
- **Backend:** Node.js, SQL, MySQL, PostgreSQL, Rest API.
- **Others:** SCRUM, Git, Github.

Projects

GameNest - Gaming Backlog　Github Repository

- Currently developing a service that will offer a way to discover games, save them to a collection, track them, read/create reviews of the games you've played, and more.
- Technolgies used: React.js, Node.js, JWT, Express, PostgreSQL, TailwindCSS.

DonC Alojamientos　Github Repository

- I designed a website where you can book different types of houses and even list your own.
- Technolgies used: React, Node.js, JWT, Express, PostgreSQL, TailwindCSS.

Dawson E-Commerce　Github Repository

- I developed an E-Commerce website as part of a team using the SCRUM methodology.
- Technolgies used: HTML, CSS, JavaScript, LocalStorage, Bootstrap.
